

BICSI TRAINING CERTIFICATION COURSE FOR:

IN200 - INSTALLER LEVEL 2

Who Should Attend

Experienced telecommunications installers who wish to expand their knowledge of the industry, learn new skills, and continue to advance professionally

Prerequisites

Two or more years of recent, verifiable telecommunications/low-voltage cabling experience. Successful completion of BICSI's Installer, Level 1 training, exam, and on-the-job training is recommended.

Keep up with innovations, trends, and emerging technologies.

Broaden your knowledge and sharpen your skills for greater success with this five-day course, tailored to the needs of cabling installers who want to stay abreast of the latest installation practices and standards.
