Technician - TE300	3/21/08 3/28/08	3/22/08 3/29/08
Installer Level II - IN200	8/1/08 8/8/08	8/2/08 8/9/08
Technician - TE300	10/17/08 10/24/08	10/18/08 10/25/08

Note: all classes start precisely at 7:00AM

QUALITY INSTRUCTION: Out of the 200 plus BICSI Certified Trainers worldwide, the Mid-South IEC's BICSI Trainer is only one of two BICSI Trainers that holds the RCDD, NTS and OSP certifications.

The Difference in the BICSI courses offered here at the IEC then **other** BICSI training facilities is that we teach the courses with you in mind. Meaning how we manage the required hours for the BICSI courses is a little different than most. The BICSI courses are 40 hours in length. However we have learned that many of our BICSI students cannot be pulled out of the field for five consecutive business days to attend this type of training.

Therefore we teach the 40 hours BICSI courses over two consecutive weekends. The first 20 hours are taught on a Friday and Saturday and the next 20 hours are taught the following Friday and Saturday. This way you can receive the BICSI certifications and only miss two days of work.
